Software Developer

Software Developer | Cybersecurity Student | Problem-Solver

Results-driven developer with experience in designing, building, and securing web and software applications. Skilled in full-stack development, vulnerability assessment, and performance optimization. Proven ability to deliver efficient solutions that enhance user experience and business productivity. Passionate about writing clean, scalable code and staying ahead of industry trends.

WORK EXPERIENCE

Freelance Developer - Remote 2022 - Present

Full-Stack Developer

Worked with various clients to design, develop, and maintain web and software applications tailored to their business needs.

- Built responsive and dynamic websites using HTML, CSS, JavaScript, React.JS, MySQL, and backend technologies.
- Developed and integrated APIs to enhance functionality and interoperability.
- Provided ongoing support, troubleshooting, and optimization for deployed applications.
- Ensured secure and scalable solutions through best development practices.

VIPH Nigeria Limited - Mowe, Ogun State 2023 - Present

Full-Stack Developer

Designed and developed web applications to support business operations, focusing on performance and security. Worked closely with teams to implement scalable solutions.

- Developed a school management portal using Laravel, MySQL, and Blade, implementing role-based access, student record management, and PDF report generation.
- Maintained web applications, improving system efficiency.
- Optimized website performance, enhancing user experience and accessibility.
- Collaborated with stakeholders to gather requirements and deliver tailored software solutions.
- Implemented security best practices to safeguard applications from vulnerabilities.

EDUCATION

NIIT - Ikeja, Lagos State.

Diploma – Web Development

Chrisland University - Abeokuta, Ogun State.

B.Sc. – Cybersecurity

PROFESSIONAL SKILLS

- **Full-Stack Web Development** – Proficient in front-end and back-end technologies for building scalable applications.
- **Cybersecurity & Vulnerability Assessment** – Skilled in identifying and mitigating security threats to protect systems.
- **Software Development & Optimization** – Experience in designing efficient, high-performance software solutions.
- **Project Management & Collaboration** – Ability to manage projects, meet deadlines, and work effectively with teams.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, PHP, Python
- **Front-End Frameworks/Libraries:** React.js, Next.js, Angular, jQuery
- **Backend Technologies:** Python, PHP, Laravel
- **Databases:** MySQL
- **Cloud Platforms:** AWS (Amazon Web Services)
- **Cybersecurity Tools:** Burp Suite, Metasploit, Wireshark
- **Version Control & DevOps:** Git, GitHub

Badges & Certificates

- **Cisco Certified Support Technician Cybersecurity (CCST Cybersecurity)**

Issued by: Cisco

Date: November 2025
